**That
Hurt**

A dark, grainy photograph of a lunar surface. A bright light source, possibly the sun, is visible in the upper left, casting a long, dark shadow across the surface. The shadow appears to be of a person or a piece of equipment. In the lower right, there are two small, bright, rectangular objects, possibly flags or markers. The overall scene is very dark and has a high-contrast, almost black-and-white quality.

How on Earth

How on
Earth
could you be so
mean?

How in Heaven

How in
Heaven
can I even
fix this?

That really Hurt

With prayers, Elizabeth
